Join us and Develop Your Career at ShanghaiTech University!

Time: 19:00, Thursday November 20th 2014
Venue: University of Chicago area
(Specific location will be announced later)
RSVP: Ms. Xiao Yin, xiaoyin@shanghaitech.edu.cn

Speaker: Prof. Gong Jinkang, Vice President of ShanghaiTech University

About the event: Prof. Gong Jinkang will present ShanghaiTech University and talk about the unique opportunities of doing research at ShanghaiTech as tenure-track faculty members.

About ShanghaiTech University
ShanghaiTech University is a research university comprising four schools and two research institutes. The structure of our four schools emphasizes the cross-disciplinary and innovative nature of our research, approach to education and community service. We intend to leverage our location in the City of Shanghai, with the support of the Shanghai Municipal Government and the extraordinary resources of the Chinese Academy of Sciences (CAS).

The University is building a top-tier faculty of 1000 professors including 500 tenured/tenure track faculty (recruited globally) and 500 adjunct faculty recruited from CAS Institutes, leading global companies, and other prestigious universities. Among the current faculty (numbering 300), three are Nobel Laureates.

Our inaugural undergraduate class of 2018 has 207 members drawing from the nation’s top high schools, and our second cohort of graduate students (425) class entered this fall. We have campuses in downtown Shanghai and Zhangjiang Hi-Tech Park (the Silicon Valley of China). ShanghaiTech is completing a state-of-the-art research infrastructure and has formed a network of research alliances with nearby facilities such as CAS Shanghai Advanced Research Institutes, Shanghai Synchrotron Radiation Facility, and the National Center for Protein Science Shanghai.
The recruiting schools and institutes are:
- School of Physical Science and Technology (SPST)
- School of Life Science and Technology (SLST)
- School of Information Science and Technology (SIST)
- Shanghai Institute for Advanced Immunochemical Studies (SIAIS)
- iHuman Institute

Please goes to www.shanghaitech.edu.cn for the detailed information of the schools and research institutes.

We provide internationally competitive start-up fund including support of Research Associates and Post-Doctoral fellows. Laboratory space will be provided to match the research needs. Salary is highly competitive and commensurate with experience and academic accomplishments. We offer a comprehensive benefit package including housing benefits.

**Qualification**
The successful candidates should have an exceptional track record of research in closely related disciplines within the last five years. Besides maintaining an active research program, the recruited candidates will be expected to contribute to the educational missions of undergraduate and graduate programs of the university.

**Application Procedure**
Submit a cover letter containing the description of the major research achievements, a 2-3 page statement of research interests, a CV and the names and addresses of three individuals who can serve as references to each school/institute that you intend to apply. Review of applications is on a rolling basis with no deadlines, until all the positions are filled.
